

No. of Functional Features Included in the Solution

Date	29 September 2026
Team ID	SWTID-2026-2905
Project Name	LegalEase: AI-Powered Legal Document Generator
Maximum Marks	5 Marks

Functional Features Overview:

This document lists the functional features included in the LegalEase project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	User Registration & Login	Allows users to securely access the LegalEase application.	Authentication	Done	0.5
2	Legal Document Input Form	Collects required case and user details through structured forms.	User Interface	Done	0.5
3	AI-Powered Document Generation	Generates draft legal documents from the supplied information.	AI / Generator	Done	1.0
4	Legal Document Templates	Provides predefined formats for commonly required legal documents.	Template Module	Done	0.5
5	Document Preview & Editing	Allows users to review and edit generated content before final use.	Document Module	Done	0.5
6	Document Download / Export	Allows generated documents to be saved or downloaded in a suitable format.	Export Module	Done	0.5
7	Input Validation & Error Handling	Validates required fields and handles invalid or incomplete input.	Validation Module	Done	0.5
8	Document History / Storage	Stores generated documents for later access and reference.	Database / Storage	In Progress	1.0

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	7
Core / Must-Have Features	6
Additional / Nice-to-Have Features	2
Features Tested & Verified	7

Feature Category Breakdown:

S.No	Category	Features In Category	Example Features
1	User Interface (UI)	2	Registration/Login, Legal document input form
2	Backend / Logic	2	AI document generation, Input validation
3	Database / Storage	1	Document history and generated-document storage
4	API / Integration	2	AI service integration, Document export/download
5	Security / Authentication	1	User authentication and controlled access

Functional Feature Notes:

Feature Area	Details
AI Document Generation	Uses AI-assisted processing to create structured drafts based on user-provided legal information.
Document Templates	Supports reusable templates so different types of legal documents can be generated consistently.
Validation	Checks important user inputs before document generation and provides appropriate error handling.
Storage	Provides a structured approach for saving generated documents and maintaining document history.
